Moldovan PM, Latvian Ambassador discuss Moldova’s European path, expanding of economic cooperation with Latvia

Latvia’s support for advancing Moldova’s accession negotiations with the European Union, expanding economic cooperation and attracting Latvian investments to the country have been discussed by Prime Minister Vasile Tofan and Ambassador of Latvia Edgars Bondars during a meeting.

Prime Minister Vasile Tofan emphasized that 2027 would be decisive for the country’s European path, in the context of the goal of concluding the accession negotiations at the beginning of 2028. The PM expressed appreciation for Latvia’s consistent support and noted that Moldova was counting on its assistance in advancing the negotiations, including during the period when Latvia will hold the presidency of the Council of the EU.

The officials also discussed expanding economic cooperation, particularly in the fields of information technology, artificial intelligence, digital infrastructure and renewable energy. The sides highlighted the involvement of Latvian companies in the development of the digital sector of Moldova, including TILDE’s participation in establishing the Moldova AI Hub and TET’s intention to develop a data center in the country. Presently, 66 companies with Latvian capital’s participation are registered in our country.

Prime Minister Tofan and Ambassador Edgars Bondars also highlighted the benefits of the direct air connection between Chisinau and Riga for developing relations between the two countries. The discussions also focused on leveraging Latvia’s experience in modernizing the airport infrastructure, in the context of development projects for the Chisinau International Airport, including the expansion of the passenger terminal by approximately 5,000 square meters.
