

The flag that unites us!

Under the Tricolor, children learn in their own language, farmers grow their bread, and the defenders of the country protect it with dignity.

Beneath the same Flag, distances fade, and the sense of belonging brings us closer, beyond any borders. The three colors - blue, yellow, and red - remind us that we share the same identity, the same values, and the same destiny.

The pride of seeing it flying unites and inspires us to contribute, day by day, to a better future - a reintegrated, modern, and European country.

Happy National Flag Day of the Republic of Moldova!

Let us honour the Tricolor!
