

After more than twenty years, education experts from both banks of the Nistru River visited the complex of buildings of the Theoretical Lyceum „Evrika”, located in Râbnița, Gagarin Street, 14

On February 28, 2025, more than twenty years later, educational experts from Chișinău and Tiraspol visited the complex of buildings of the Theoretical Lyceum „Evrika” located in Râbnița at Gagarina Street, 14. The building has not been used since 2004, when Tiraspol blocked access to it.

During the visit, a general/initial assessment of the current condition of the buildings and the surrounding area was carried out at the above address in order to determine possible further measures for the resumption of repair work and the commissioning of buildings as an infrastructure facility belonging to the Theoretical Lyceum „Evrika”.

The experts from Chișinău welcomed the openness of Tiraspol and noted that after receiving written confirmation regarding the use of the relevant premises for educational purposes, technical specialists will be able to carry out working visits to carry out the necessary expertise and work.
