

Tiraspol responded to the proposal to provide emergency assistance to the Transnistrian region from the Republic of Moldova and the European Union to overcome the crisis that arose after Gazprom and the Russian Federation stopped supplying gas to the regi

After reviewing the appeal of the political representative from Chişinău, Tiraspol welcomed the support offered in this regard and expressed openness to holding a consultative meeting.

Thus, in order to discuss the technical aspects of implementing the support, a technical working meeting will be held on January 30, 2025, to which representatives of energy companies from both banks of the Nistru River are invited.

We confirm the strong commitment of the authorities of the Republic of Moldova to provide assistance to residents of both banks of the Nistru River and to promptly resolve the difficulties that have arisen in the context of the current energy crisis.
