

# **Nearly 14 thousand residents of the Transnistrian region are officially employed on the right bank of the Nistru river**

According to data from the State Tax Service, in 2025, 13,810 people with residence in the Transnistrian region were registered on the right bank of the Nistru River as officially employed, of whom 57.6% were men (7,950 people) and 42.4% were women (5,860 people).

The geographical distribution shows a strong concentration in the municipality of Chișinău, where over 80% of all employees are active, most of them originating from the cities of Tiraspol, Bender, Slobozia, and other nearby localities (over 54%).

Integration into the public social insurance system is solid, as 93.85% of employees work under individual employment contracts, which confirms the legality and stability of employment relations.

Regarding professional preferences, the main fields of activity attracting workers from the region are retail trade, transport, general secondary education, construction works, manufacturing of various products, medical and pharmaceutical assistance activities, among others.

These data confirm an advanced level of integration of residents from the Transnistrian region into the labor market on the right bank, demonstrating a functional and stable process of economic and social cohesion.

Residents of the left bank of the Nistru River and the municipality of Bender benefit from employment relationships in conditions of security and legality, the right to all categories of leave, competitive salaries that ensure a decent standard of living, etc.

At the same time, through their active participation in key sectors such as industry, education, and trade, residents of the Transnistrian region contribute directly and substantially to the socio-economic development of the Republic of Moldova.
