Working visit of Deputy Prime Minister Oleg Serebrian to Cioburciu village

Deputy Prime Minister Oleg Serebrian, accompanied by representatives of the Reintegration Policies Bureau, paid a working visit to Cioburciu village on Wednesday, December 21st, in the context of the Government meeting held in Stefan Voda. During the visit, participants were informed on the spot about the needs of the locality and the achievements made within community development programmes.

During the dialogue with the mayor of the village and the representatives of local public institutions, the difficulties faced by the population and the public administration of the village were highlighted, thus, attention was drawn to the need to rehabilitate the infrastructure of the access road L510 - L530 to the village, to rebuild and create conditions for the house of culture and to modernize the heating and thermal insulation system of the middle school ‘Mihai Sirghi’, etc.

It is worth mentioning that the middle school ‘Mihai Sirghi’, currently attended by more than 250 children, has received in 2019, through the Program of activities for the reintegration of the country, budget allocations of 658 thousand lei within the project ‘Strengthening students' health by improving sanitary conditions in the premises for school meals' preparing’.

During his visit, Deputy Prime Minister Oleg Serebrian visited the house of culture, the branch of the music school ‘Maria Biesu’, the village library, the museum, the art school, etc. The Deputy Prime Minister drew attention to the need to maintain the premises in good conditions for the proper development of educational, cultural and extracurricular processes, but also for the benefit of the whole community.

In this regard, the representatives of the Reintegration Policies Bureau encouraged local authorities to continue applying for community development projects, financed

through assistance programmes offered by international donors, as well as the Programme of Reintegration Activities of the country for 2023.
