

Deputy Prime Minister Cristina Lesnic resumed work after being treated for COVID-19

The Bureau for Reintegration announces that the Deputy Prime Minister for Reintegration, Cristina Lesnic, has resumed work in the Government after being treated for COVID-19.

Cristina Lesnic was diagnosed positive with COVID-19, being initially treated at home, and during the last week she was hospitalized. She would like to sincerely thank the medical system for the titanic work and all the partners for understanding and patience.

Currently, the Deputy Prime Minister is feeling well, she has returned to the office and is following doctors' recommendations. She thanked her colleagues for their messages of support and for their efficient activity during this period, which allowed the Bureau for Reintegration to continue its work.
