

Government of the Republic of Moldova

Action Programme

Chişinău, November 2019

PREAMBLE

Taking into account the status of the minority government, which was established to remedy the unstable situation in most areas of social and economic life in the Republic of Moldova, the time frame of the Programme is limited to the period until the presidential elections in autumn 2020.

The Programme reflects the Government's vision of immediate actions to be taken in the coming weeks in order to restore the functionality of the central public administration, which has been significantly affected in recent months. Currently, we register the lowest level of citizens' confidence in the state institutions and, indirectly, in our state. A number of immediate objectives to be achieved at the end of the year are aimed, in particular, to correct the mistakes made in the justice reform process, to stimulate this process and, consequently, to bring to justice and punish those who have devaluated the country's banking system, placing a huge financial burden on the shoulders of citizens, those who have been lacking the state for half a century from the only international airport in the country, that prejudices the state and the people, those who act prematurely against the Republic of Moldova. We will act quickly and decisively in the fight against crime and the improvement of citizens' security, otherwise the developments in this field will be very serious and very similar to the catastrophe of the 90s of last century. It is necessary to take urgent measures to develop, to consult with the business environment and to promote the fiscal stimulus package for the next year, as well as the annual budget laws. The absence of these documents in mid-November has already largely jeopardized the investment plans of the majority of the country's economic entities. There is an urgent need to amend the Budget Law for 2019 in order to ensure the payment of salaries to certain budget categories, especially in local public administration. The country is completely unprepared for the winter period, and the situation with natural gas supply after January, 1st is uncertain. Under these conditions, the Government will take all measures to improve the country's energy security, as well as to prepare reserve scenarios. Urgent measures will be taken to unblock the export of agricultural products to the east, and the inaction of the previous government has clear signs of sabotage in this respect.

Within its mandate, the Government will focus on several priority areas reflected in the Programme. On the basis of these priorities and an assessment of the current situation in the country, the Government will approve, within 30 days of its creation, a detailed Action Plan with clear timelines for implementation, quantitative performance indicators, as well as institutions and officials responsible for implementing the actions included in the Plan.

The Moldovan government will have the highest goal of improving the quality of people's lives. To this end, we will consolidate our relations with the European Union, respect all the international commitments undertaken in the past, including the Association Agreement with the European Union and the documents signed within the Community of Independent States. We will contribute to a balanced foreign policy, strengthening the status of neutrality of the Republic of Moldova. We seek to strengthen the strategic partnership that our country is building with the United States of America and the Russian Federation. At the same time, we will continue and intensify our efforts to deepen our friendly relations with our neighbouring countries, Romania and Ukraine.

IMMEDIATE TARGETS

In the period immediately following the investment, the Government will take some quick and decisive steps to ensure the effective management of affairs in the state, which will cover several important areas, including:

I. JUSTICE

- *To adjust the Concept for the Reform of the Supreme Court and the Extraordinary Evaluation of Judges and Prosecutors in strict accordance with the recommendations of the Venice Commission and ODIHR;*
- *To appoint an independent and upright Prosecutor General in accordance with the current legislation;*
- *To identify and remove the vulnerabilities of justice to unjustified political, business and criminal pressure;*
- *To investigate and prosecute of those responsible for the devaluation of the country's banking system, for the implementation of schemes of misappropriation of public and private property;*
- *To identify urgent solutions to prevent blockages in the functioning of the judicial system.*

II. PUBLIC OPINION

- *To implement a set of urgent actions to halt the increase in serious and particularly serious crimes in the country;*
- *To rehabilitate and strengthen the institutional and professional capacity of police units by identifying and using highly qualified personnel;*
- *To develop and implement an effective road traffic casualty reduction action plan.*

III. PUBLIC ADMINISTRATION

- *To restore the functionality of the central public administration by strengthening the management of ministries at the level of state secretaries;*
- *To re-employ technocratic specialists in state institutions, dismissed by the previous government according to political criteria;*
- *To employ based on the principles of professionalism and meritocracy of the heads of public institutions, including in the case of the Customs Service;*
- *To assess the effectiveness of the existing structure of central public administration and reorganization of ministries and departments to improve the quality of policies and services provided to citizens and businesses.*

IV. FOREIGN POLITICS

- *To ensure the professional continuity of the active political, economic, cultural and humanitarian dialogue of the Republic of Moldova, as a subject of relations and international law, with other states of the international community, first of all with strategic and traditional partners of Moldova;*
- *To promote a balanced foreign policy by continuing the process of efficient and full implementation of the provisions of the Association Agreement with the European Union and the Free Trade Agreement (DCFTA), while initiating the process of restoration of pragmatic, strategic and mutually beneficial relations with the Russian Federation, in accordance with the national interests of the Republic of Moldova;*
- *To take necessary measures to get political support from the international community in order to facilitate the process of final political settlement of the Transnistrian conflict;*

- *To initiate appropriate actions to study the existing external experience, which can be useful in the process of international recognition of the neutrality status of the Republic of Moldova;*
- *To deepen communication with representatives of the Moldovan diaspora and identify additional ways to assist our citizens outside the Republic of Moldova;*
- *To strengthen the functional and administrative capacities of the Ministry of Foreign Affairs and European Integration in order to improve the quality and efficiency of the diplomatic service of the Republic of Moldova;*
- *To suspend the diplomatic service of the Republic of Moldova from the influence of political parties by amending the Law on Foreign Service in the sense of prohibiting the political affiliation of members of diplomatic services;*
- *To engage international experience in support of the justice reform process as a priority to ensure the completion of this comprehensive exercise for the benefit of the people of the Republic of Moldova.*

V. ECONOMIC DEVELOPMENT AND ENERGY SECURITY

- *To advise and promote a draft law related to the initiative of the President of the Republic of Moldova regarding the creation of the position of Entrepreneur's Lawyer;*
- *To re-function the regulatory impact assessment mechanism to avoid administrative pressure on the business environment;*
- *To implement a set of measures aimed at reducing the administrative burden on the business environment;*
- *To assure the efficiency of the energy sector during the cold period of the year;*
- *To adopt the measures to ensure natural gas supplies to consumers in the Republic of Moldova after January 1, 2020.*

VI. PUBLIC FINANCE

- *To develop and consult with business representatives of the draft fiscal policy for 2020, which will stimulate economic growth and attract investment;*
- *To ensure the execution of the state public budget for 2019, including the use of sources of funding for the budget deficit;*
- *To develop, consult and approval of the Law on the State Budget for 2020;*

- *To elaborate and adopt a normative framework to ensure the redistribution of budgetary funds and payment of salaries in the public sector, including for employees of local public administration authorities.*

VII. SOCIAL PROTECTION AND HEALTHCARE

- *To advise and approve the Law on the budget of state social insurance for 2020;*
- *To advise and approve the Law on Mandatory Health Insurance Funds for 2020;*
- *To approve the necessary normative framework for concluding contracts with medical services providers within the framework of the system of mandatory health insurance for 2020;*
- *To change the normative framework in order to increase the amount of social assistance for the cold period of the year;*
- *To determine the budget funds for the allocation of a single financial support during the winter holidays for pensioners and state social benefits recipients;*
- *To adopt necessary measures to amend the regulatory framework in order to increase the salaries of employees of public health institutions included in the system of mandatory health insurance;*
- *To restore the social programmes cancelled by the previous government, including the "Doctor for you" programme, etc.*

VIII. EDUCATION, RESEARCH, CULTURE

- *To approve a draft law on the amendment of the Code of the Republic of Moldova on science and innovation;*
- *To approve the methodology of institutional financing of public-law organizations in the field of research and innovation, including public higher education institutions;*
- *To start the consultations with the Council of Rectors of Moldova on the elaboration of the National Program of Higher Education Support;*
- *To finance in priority the sports with potential for qualification at the Tokyo Olympics;*
- *To finish the works in the complex Chisinau Arena, Aqua-center & Tennis Club in Chisinau municipality.*
-

IX. AGRARIAN SECTOR

- *To unblock the export of agri-food products to the Russian market and expanding the list of exporters of fresh products, alcoholic beverages and canned products;*
- *To amend the Law No. 276/2016 6 on Principles of Subsidizing Agricultural Producers in the development of agriculture and rural environment to encourage investment in the post-harvest and processing sector of agricultural production (without taking into account the condition of 50% availability of own raw materials);*
- *To review the regulation of subsidies in agriculture and its approval by the end of the year.*

The list of measures is not complete and will be finalized without delay after a comprehensive assessment of all areas.

PRIORITY ACTIVITY DIRECTIONS
